# BATTERIE AVVIAMENTO

**ACTIVA**

# Affidabilità e Potenza

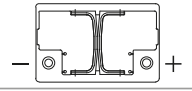

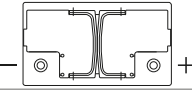

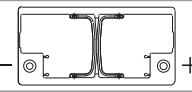

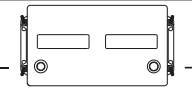

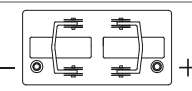

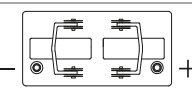

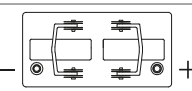

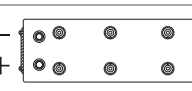

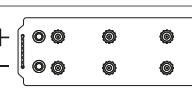

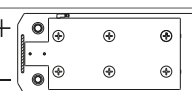

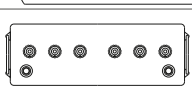

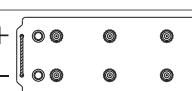

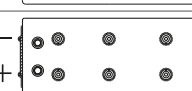

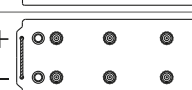

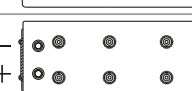

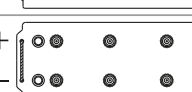

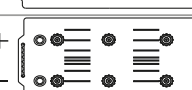

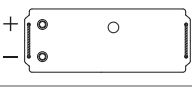

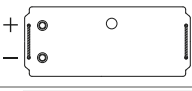

Le nostre batterie avviamento sono studiate per fornire l'energia necessaria al funzionamento delle moderne **autovetture**, dei **veicoli commerciali leggeri e pesanti** e dei **trattori**.

Le batterie auto sono tutte prodotte con la tecnologia **piombo/calcio** che non richiede manutenzione e garantiscono affidabilità ed elevate prestazioni. Le nuove batterie **start&stop**, per veicoli equipaggiati con questo sistema, sono state progettate con le più recenti innovazioni tecnologiche che consentono un elevato livello di efficienza.

Le batterie per veicoli commerciali, concepite per dare il massimo delle prestazioni, offrono tutta la potenza necessaria in ogni condizione.

DAL1964

Attingendo a un bagaglio di oltre 50 anni di know-how nella produzione di accumulatori ad alta tecnologia oggi consente al marchio di presentarsi come un prodotto di alta affidabilità. Da sempre si contraddistingue per l'elevato standard qualitativo e per la massima efficienza delle batterie su ogni impiego.
